

What if ... one connection could spark a breakthrough?

30+
Years

150+
Live & Virtual
Events

Uniting today's leading
researchers, scientists
and technologists
to inspire discovery

Conference Catalog

January 2025 – August 2025

Healthtech.com

CHI is a Division of
 Cambridge **Innovation** Institute
RESEARCH • COLLABORATION • ADVANCEMENT

TABLE OF CONTENTS

SHORT COURSES	4
CONFERENCE BY SERIES	
Biological Therapeutic Products	5
Therapeutic Indications	6
Chemistry	6
Informatics and IT	7
Drug and Device Safety	7
Bioprocess and Manufacturing	8
BioPharmaceutical Strategy	8
Clinical Trials & Translational Medicine	9
Biomarkers and Diagnostics	9
Drug Targets	10
Detection	10
Technology and Tools for Life Sciences	11-12
Cambridge VIP	12
Drug Discovery & Development	13
CONFERENCES BY DATE WITH DETAIL	14-15

ABOUT CAMBRIDGE HEALTHTECH INSTITUTE

For 30+ years, Cambridge Healthtech Institute has developed more than 800 conferences, which have attracted over 60,000 attendees from around the world. CHI is the industry leader in offering quality programs that provide valuable new insights and competing points of view while offering balanced coverage of the latest developments in the life science industry. Leading researchers and business experts from top pharmaceutical, biotech, and academic organizations present their most current findings in a forum that features panel discussions and audience participation.

Each year, CHI organizes over 150+ Live & Virtual Events geared to the biotech and pharmaceutical industries with specific focuses on Biomarkers, Genomics, Proteins and Proteomics, Drug Discovery & Development, IT and Informatics, Chemistry, Diagnostics & Safety, and Business.

For a comprehensive listing and detailed information about our products and services, please visit: healthtech.com.

CONTACT US

CLIENT RELATIONS

Pamela Gerardi
Senior Director of Client Relations
E: pgerardi@healthtech.com | T: 781-972-5409

Kris Waterman
Client Relations Manager
E: kwaterman@healthtech.com | T: 781-972-5413

MARKETING

Jim MacNeil
Senior Vice President of Marketing
E: jmacneil@healthtech.com | T: 781-972-5441

Rich Handy
Associate Vice President of Marketing
E: rhandy@healthtech.com | T: 781-972-5456

SPONSOR & EXHIBIT SALES

Patty Rose
Vice President of Sales
E: prose@healthtech.com | T: 781-972-1349

Ilana Quigley
Sales Director
E: iquigley@healthtech.com | T: 781-972-5457

GROUP SALES

David Cunningham
Director of Inside Sales
E: cunningham@healthtech.com | T: 781-972-5472

GRAPHICS

Thomas Norton
Senior Design Director
E: tnorton@healthtech.com | T: 781-972-5440

PRODUCTION

Edel O' Regan, Ph.D.
Senior Vice President of Production
E: eoregan@healthtech.com | T: 781-972-5423

Christina Lingham
Executive Director of Conferences and Fellow
E: clingham@healthtech.com | T: 781-972-5464

Mary Ann Brown
Executive Director of Conferences
E: mabrown@healthtech.com | T: 781-972-5497

Julia Boguslavsky
Executive Director of Conferences
E: juliab@healthtech.com | T: 760-732-3139

Micah Lieberman
Executive Director of Conferences
E: mliberman@healthtech.com | T: 541-482-4709

Marina Filshtinsky
Senior Conference Director
E: mfileshtinsky@healthtech.com | T: 781-97205496

Cambridge Healthtech Institute

250 First Avenue, Suite 300 | Needham, MA 02494

KEY EVENTS

24th Annual
PepTalk
JANUARY 13-16, 2025
 SAN DIEGO, CA + VIRTUAL

The Protein
 Science and
 Production
 Week

16th Annual
SCOPE
 SUMMIT FOR CLINICAL OPS EXECUTIVES

February 3-6, 2025
 Rosen Shingle Creek • Orlando, Florida

32nd International
**Precision Med
 TRI-CON**

March 11-13, 2025
 Town & Country Resort
 San Diego, CA & Virtual

20th ANNUAL
**Drug Discovery
 Chemistry**

APRIL 14 - 17, 2025
 HILTON BAYFRONT | SAN DIEGO, CA + VIRTUAL

Optimizing Small
 Molecules for
 Tomorrow's
 Therapeutics

24th Annual
Bio·ITWorld
 CONFERENCE & EXPO

APRIL 2-4, 2025
 BOSTON, MA + VIRTUAL

Converging Science and IT to Advance Precision Medicine

21st ANNUAL
**PEGS
 BOSTON**

MAY 12-16, 2025
 BOSTON, MA + VIRTUAL
 OMNI BOSTON HOTEL AT THE SEAPORT

The Essential Protein & Antibody
 Engineering Summit

AUGUST 11-13, 2025
 HILTON PHILADELPHIA AT PENN'S LANDING
 PHILADELPHIA, PA + VIRTUAL

CAMBRIDGE HEALTHTECH INSTITUTE'S 12th ANNUAL
**I-O Immuno-Oncology
 SUMMIT 2025**

Immuno-OncologySummit.com #IOSummit

Solid Tumors:
 Translating Innovation into Patient Impact

17th Annual
Next Generation Dx
 Summit

Advancing Diagnostics Together

AUGUST 18-20, 2025
 WASHINGTON, D.C.
 CAPITAL HILTON & VIRTUAL

17th ANNUAL
**BIOPROCESSING
 SUMMIT**

August 18-21, 2025 | Boston, MA
 Omni Boston Hotel at the Seaport

Short Courses

Safety & Toxicity of Nucleic Acids IN PERSON ONLY

March 11, 2025 • Boston, MA

Successful Regulatory Submission for a Complex Oligonucleotide IN PERSON ONLY

March 11, 2025 • Boston, MA

FAIRification Lab—Applying FAIR Principles to Enhance Data Stewardship IN-PERSON ONLY

April 2, 2025 • Boston, MA

Foundations of Quantum Computing in Drug Discovery IN-PERSON ONLY

April 2, 2025 • Boston, MA

Making Data AI-Ready IN-PERSON ONLY

April 2, 2025 • Boston, MA

Advanced Applications and Roadmap for Quantum Computing in Pharma IN- PERSON ONLY

April 2, 2025 • Boston, MA

Degraders: A Beyond Rule of Five Space and in vitro ADME Perspective

April 14, 2025 • San Diego, CA

Drug Design: Advancing Tools and Technologies

April 14, 2025 • San Diego, CA

Fundamentals of Generative AI for Drug Discovery

April 14, 2025 • San Diego, CA

Target Engagement: Technology Innovations

April 14, 2025 • San Diego, CA

Protein Degraders: An in vivo ADME and Safety Perspective

April 16, 2025 • San Diego, CA

Chemical Biology for Covalent Drug Discovery, Phenotypic Screening, and Target Deconvolution

April 16, 2025 • San Diego, CA

in Drug Development: Strategies for Innovation and Integration

April 16, 2025 • San Diego, CA

Principles of Drug Design: Ligand- Receptor Interactions and More

April 16, 2025 • San Diego, CA

DNA-Encoded Libraries

April 16, 2025 • San Diego, CA

In silico and Machine Learning Tools for Antibody Design and Developability Predictions

May 11, 2025 • Boston, MA

Safety & Efficacy of Bispecifics and ADCs

May 11, 2025 • Boston, MA

Solid Tumors: Challenges and Therapeutic Innovations

May 11, 2025 • Boston, MA

Best Practices for Targeting GPCRs, Ion Channels, and Transporters with Monoclonal Antibodies

May 13, 2025 • Boston, MA

Targeting the Target: Aligning Target and Biologic Format Biology to Achieve Desired Outcomes

May 13, 2025 • Boston, MA

Developability of Bispecific Antibodies

May 13, 2025 • Boston, MA

Nuts and Bolts of Building a Radiopharmaceutical Therapy Agent

May 13, 2025 • Boston, MA

Breakthroughs happen.

How Are You Developing Your Clinical Research Workforce?

- » Role-based training for key clinical research roles
- » Subscription-based access to Barnett's numerous resources
- » Licensing of Barnett's content and train-the-trainer programs
- » On-demand company-wide GCP training
- » Training strategy consulting
- » Publications, reference guides and job aids

Let Barnett help you to
**Maximize Your Training
& Development Initiatives**
while leveraging our resources
for your teams.

+1.781.972.5402 for General Inquiries • +1.215.413.2471 for Customized Programs

PepTalk- The Protein Science & Production Week

January 16 - 19, 2024 • San Diego, CA

Clinical Supply & Logistics

February 3 - 6, 2025 • Orlando, FL

OPT Congress: Oligonucleotides & mRNA Therapeutics

March 11 - 12, 2025 • Boston, MA

Oligonucleotide Discovery & Delivery

March 11 - 12, 2025 • Boston, MA

Oligonucleotide CMC & Regulatory Strategies

March 11, 2025 • Boston, MA

mRNA Design & Delivery

March 11 - 12, 2025 • Boston, MA

Emerging Oligonucleotide Modalities

March 11 - 12, 2025 • Boston, MA

Cell Culture and Cell Line Engineering - Part 1

March 18 - 19, 2025 • Barcelona

Advances in Recovery and Purification - Part 1

March 18 - 19, 2025 • Barcelona

Gene Therapy CMC and Analytics

March 18 - 19, 2025 • Barcelona

Accelerating Analytical Development

March 18 - 19, 2025 • Barcelona

Cell Therapy CMC and Manufacturing

March 18 - 19, 2025 • Barcelona

Process Modeling and Developability

March 18 - 19, 2025 • Barcelona

Cell Culture and Cell Line Engineering - Part 2

March 19 - 20, 2025 • Barcelona

Intensified and Continuous Processing

March 19 - 20, 2025 • Barcelona

Advances and Recovery and Purification - Part 2

March 19 - 20, 2025 • Barcelona

Next-Generation Analytical Methods

March 19 - 20, 2025 • Barcelona

Gene Therapy Manufacturing

March 19 - 20, 2025 • Barcelona

AI and Process Control

March 19 - 20, 2025 • Barcelona

PEGS Boston: The Essential Protein & Antibody Engineering Summit

May 12 - 16, 2025 • Boston, MA

Display of Biologics

May 12 - 13, 2025 • Boston, MA

Difficult-to-Express Proteins

May 12 - 13, 2025 • Boston, MA

Advances in Immunotherapy

May 12 - 13, 2025 • Boston, MA

Antibodies for Cancer Therapy

May 12 - 13, 2025 • Boston, MA

Biologics for Immunology Indications

May 12 - 13, 2025 • Boston, MA

Optimizing Protein Expression

May 13 - 14, 2025 • Boston, MA

Engineering Cell Therapies

May 13 - 14, 2025 • Boston, MA

Advancing Multispecific Antibodies and Combination Therapy to the Clinic

May 13 - 14, 2025 • Boston, MA

Predicting Immunogenicity with AI/ML Tools

May 13 - 14, 2025 • Boston, MA

Radiopharmaceutical Therapies

May 13 - 14, 2025 • Boston, MA

Emerging Targets for Oncology and Beyond

May 13 - 14, 2025 • Boston, MA

Machine Learning Approaches for Protein Engineering

May 15 - 16, 2025 • Boston, MA

Engineering Bispecific and Multifunctional Antibodies

May 15 - 16, 2025 • Boston, MA

Driving Clinical Success in Antibody-Drug Conjugates

May 15 - 16, 2025 • Boston, MA

Maximizing Protein Production Workflows

May 15 - 16, 2025 • Boston, MA

Next-Generation Immunotherapies

May 15 - 16, 2025 • Boston, MA

Immuno-Oncology Summit

August 11 - 13, 2025 • Philadelphia, PA

Breakthroughs in Cell Therapy

August 11, 2025 • Philadelphia, PA

Bi & Multispecific Engineering

August 11, 2025 • Philadelphia, PA

Translating Multispecific Success

August 12, 2025 • Philadelphia, PA

Autoimmunity

August 12, 2025 • Philadelphia, PA

Antibody-Drug Conjugates

August 13, 2025 • Philadelphia, PA

Innate Immunity

August 13, 2025 • Philadelphia, PA

RNA Development, CMC, and Manufacturing

August 18 - 19, 2025 • Boston, MA

Gene Therapy CMC and Analytics

August 18 - 19, 2025 • Boston, MA

Cell Line Engineering & Development

August 18 - 19, 2025 • Boston, MA

Accelerating Analytical Development

August 18 - 19, 2025 • Boston, MA

Cell Therapy CMC and Analytics

August 18 - 19, 2025 • Boston, MA

Intensified and Continuous Bioprocessing

August 18 - 19, 2025 • Boston, MA

Formulation, Stability, and Delivery

August 18 - 19, 2025 • Boston, MA

Cell Culture Optimization & Scale-Up

August 20 - 21, 2025 • Boston, MA

Next-Generation Analytical Methods

August 20 - 21, 2025 • Boston, MA

Gene Therapy Manufacturing

August 20 - 21, 2025 • Boston, MA

Digital Transformation & AI in Bioprocess

August 20 - 21, 2025 • Boston, MA

Advances in Purification & Recovery

August 20 - 21, 2025 • Boston, MA

Cell Therapy Manufacturing

August 20 - 21, 2025 • Boston, MA

Therapeutic Indications SERIES

Small Biopharma Strategies

February 3 - 6, 2025 • Orlando, FL

OPT Congress: Oligonucleotides & mRNA Therapeutics

March 11 - 12, 2025 • Boston, MA

Oligonucleotide Discovery & Delivery

March 11 - 12, 2025 • Boston, MA

Oligonucleotide CMC & Regulatory Strategies

March 11, 2025 • Boston, MA

mRNA Design & Delivery

March 11 - 12, 2025 • Boston, MA

Emerging Oligonucleotide Modalities

March 11 - 12, 2025 • Boston, MA

Precision Med TRI-CON

March 11 - 13, 2025 • San Diego, CA

Liquid Biopsy

March 11 - 12, 2025 • San Diego, CA

Precision Medicine Beyond Oncology

March 12 - 13, 2025 • San Diego, CA

Multi-Cancer Early Detection

March 12 - 13, 2025 • San Diego, CA

AI for Oncology, Precision Medicine & Health

April 3 - 4, 2025 • Boston, MA

Covalent & Induced Proximity-Based Therapies

April 14, 2025 • San Diego, CA

Degraders & Molecular Glues: Beyond Oncology

April 14, 2025 • San Diego, CA

Generative AI & Predictive Modeling

April 14, 2025 • San Diego, CA

Drug Discovery in Women's Health

April 14, 2025 • San Diego, CA

RNA-Modulating Small Molecule Drugs

April 14, 2025 • San Diego, CA

AI/Machine Learning for Early Drug Discovery – Part 1

April 15 - 16, 2025 • San Diego, CA

Degraders & Molecular Glues – Part 1

April 15 - 16, 2025 • San Diego, CA

Drugging Transcription Factors & Regulators

April 16 - 17, 2025 • San Diego, CA

Degraders & Molecular Glues – Part 2

April 16 - 17, 2025 • San Diego, CA

AI/Machine Learning for Early Drug Discovery – Part 2

April 16 - 17, 2025 • San Diego, CA

PEGS Boston: The Essential Protein & Antibody Engineering Summit

May 12 - 16, 2025 • Boston, MA

Display of Biologics

May 12 - 13, 2025 • Boston, MA

Advances in Immunotherapy

May 12 - 13, 2025 • Boston, MA

Antibodies for Cancer Therapy

May 12 - 13, 2025 • Boston, MA

Biologics for Immunology Indications

May 12 - 13, 2025 • Boston, MA

Engineering Antibodies

May 13 - 14, 2025 • Boston, MA

Engineering Cell Therapies

May 13 - 14, 2025 • Boston, MA

PepTalk

Join us at PepTalk, the premier conference dedicated to advancing biotherapeutic discovery and development. With over two decades of experience, PepTalk provides comprehensive programming and innovative solutions that bridge biotherapeutic research and practical application. Throughout the week, precise and dedicated pipelines offer symposia, conference tracks, and training seminars focused on protein expression, production platforms, lab automation for higher throughput, analytical methods including developability and characterization, antibody discovery and development, and new this year, targeted therapies and drug delivery systems. Learn from expert speakers, engage with a devoted community, and gain valuable tools to propel your research forward. Experience four days of immersive learning, world-class presentations, poster sessions, keynotes, Buzz roundtable sessions, panel discussions, exhibitions, and unparalleled networking opportunities.

Summit for Clinical Ops Executives (SCOPE)

February 3 - 6, 2025

Clinical trials, digital health, and clinical research are essential for advancing medical knowledge, improving patient care, and developing new treatments and therapies for the patients who need them. Execution of this vital work requires collaboration, innovation, and strategic decision-making. Now in its 16th year of fostering these joint efforts to be inclusive of all stakeholders, SCOPE Summit 2025 will take place February 3-6, 2025, in Orlando, FL, at the Rosen Shingle Creek. Over four stimulating days of in-depth discussions and networking, SCOPE features 30 different conferences (3 new), a bustling exhibit hall with 300+ companies (45 more than last year), 3 plenary keynote sessions, the 9th annual Participant Engagement Awards, the 2nd annual Site Innovation Award, special cross-department panels, multiple receptions, the 4th annual Master of Clinical Research golf tournament, and a morning Fun Run. SCOPE keeps gaining momentum (14% YoY Growth last year alone!). At the request of our attendees, we have extended the coverage in 2025 on Patient-Centric Trial Design, Site Engagement, Recruitment, Generative AI, Small Biopharma Strategies, and other key topics. The programming focuses on advances and innovative solutions in all aspects of clinical trial innovation, planning, management, operations, and investment. SCOPE welcomes more than 4,000 attendees and 1,200 different organizations from 30 countries, in clinical operations, innovation, and digital health, and we want you and your company to join the community!

Clinical Trial Venture, Innovation & Partnering

February 4 - 5, 2025

SCOPE Summit's Clinical Trial Venture, Innovation & Partnering Conference takes place February 4-5, 2025, in Orlando, FL. This premier boutique conference runs in parallel with the 16th annual SCOPE Summit (Summit for Clinical Ops Executives). The 3rd Annual Clinical Trial Venture, Innovation & Partnering conference brings together senior-level investors, corporate executives, entrepreneurs, and start-up leaders, from the clinical trials space. This high-level event consists of thought-provoking, industry-led panels, fireside chats, and numerous networking opportunities for CEOs, investors, and potential acquirers, to foster meaningful connections. You are invited to join us at this conference, focused on venture and innovation, to acquire valuable strategic insights, honest perspectives, and practical business recommendations for collaboration and investment. Additionally, you will have the opportunity to explore the exhibit hall and connect with both emerging and established companies in this field, enabling you to grasp the direction the industry is heading.

OPT Congress: Oligonucleotides & mRNA Therapeutics

March 11 - 12, 2025

OPT Congress is the premier event for scientists and executive directors involved in discovering and developing oligonucleotide and mRNA therapeutics. For 2025 we are delighted to expand our content and offer a conference program dedicated to emerging oligo modalities, sharing cutting-edge research and technologies used in designing new targeted therapies. Now in its 10th year, this unique event brings together leading chemists, biologists, toxicologists, CMC experts, regulatory specialists and technology providers to discuss advances in next-generation therapeutics. In addition to 2 days of inspiring keynotes, breakout discussions and 95+ scientific presentations, we deliver two in-depth short courses to further add to the learning opportunities. We look forward to welcoming you to our community focused event, offering robust and customizable programming tailored to your specific needs.

Precision Med TRI-CON

March 11 - 13, 2025

For 3 decades, the Precision Med TRI-CON has served as the leading international meeting place for the diagnostics and precision medicine community. Join over a thousand international thought leaders to discuss the latest research, technologies, innovation and business models in implementing precision medicine, biomarkers and companion diagnostics, genomic medicine, and artificial intelligence; innovation and market access strategies for at-home diagnostics, point-of-care testing and molecular diagnostics for infectious diseases; liquid biopsy and advanced diagnostics for precision oncology, including multi-cancer early detection and minimal residual disease testing. Emerging implications of faster and cheaper sequencing, AI and digital tools, and spatial biology and single-cell multiomics in advancing precision medicine will be covered in 2025. The new track on precision medicine beyond oncology will cover applications in immunology, neurology, and metabolic diseases. Join us in sunny San Diego for the in-person networking and visionary and thought-provoking keynote discussions you've come to expect from the TRI-CON!

DTx West

March 13 - 14, 2025

Now in its 8th year, The DTx Series has a new home. Like many companies in the space, the DTx Series is evolving whilst also maintaining its core goals and identity. DTx is the meeting point for those who are developing and implementing the next generation of evidence-based, clinically-validated Digital Healthcare. We have worked diligently to ensure that the pillars of the DTx Series not only remain but are strengthened, whilst also bringing new opportunities to the table. High quality networking and learning are here to stay, as is having the a focused and dedicated audience. The reach of the DTx industry is expanding and The DTx Series is organically doing the same. DTx West has evolved to match the Digital Therapeutics industry as we enter the next phase of our journey.

Bioprocessing Summit Europe

March 18 - 20, 2025

Bioprocessing Summit Europe brings together 750+ upstream, downstream, bio-production, and analytical professionals from industry and academia to advance the manufacture, quality, and control of next generation biologics and genetic therapies. This 3-day, 14-track meeting has quickly become a premier event in the European bioprocessing calendar and focuses on the latest innovations in bioprocess R&D as well as the practical solutions to enhance efficiency, speed and cost in biomanufacturing. New for 2025, we are excited to add a new conference stream on process modelling and digitalization, alongside expanded content on ML/AI, advanced process control, developability, cell culture, downstream processing, analytics, and the latest in cell, gene, and RNA therapies.

Strategic Alliance Management Congress

March 25 - 26, 2025

As the biopharmaceutical industry continues to rely on alliances and collaboration with external organizations to access innovation and obtain market access, internal teams are often confronted with the increasing complexities of systematically and effectively managing partnerships throughout their lifecycle. The function and organizational capability of Alliance Management is now recognized as a critical means to ensure the successful execution of any strategic partnership, acting as a central driver of value, while alleviating aggravations, and meeting alliance goals. Now in its twenty-second year, CHI's Strategic Alliance Management Congress will again unite senior alliance management, business development, project management, technology transfer, and licensing professionals to network, discuss case studies, and share the components that cultivate successful partnerships. Delegates will gain strategic insights, proven tools, methods, and perspectives from a variety of leaders advancing the art of Alliance Management.

Bio-IT World Conference & Expo

April 2 - 4, 2025

The Bio-IT World Conference & Expo is the premier global event showcasing technologies and analytic approaches that solve problems, accelerate science, and drive the future of precision medicine. By uniting a community of 3,000+ leaders in life sciences, pharmaceuticals, clinical research, healthcare, informatics, and technology, the event pushes the boundaries of biomedical research, drug discovery and development, and patient outcomes. The program features inspiring plenary keynotes, 200+ educational and technical presentations, interactive panels, hands-on symposia, technical workshops, unparalleled networking opportunities, and an exhibit hall showcasing cutting-edge technologies and solutions. Attendees are invited to engage in transformative conversations on the latest advancements in digital and data transformations; AI; generative AI; machine learning (ML); real-world data strategies; pilot programs; new product results; and biotech investment trends.

Bio-IT World Venture, Innovation & Partnering

April 3, 2025

Join 200+ C-Suite industry stakeholders at the Bio-IT World Venture, Innovation & Partnering Conference on April 3, 2025, in Boston, the US's top biotech hub. This exclusive single-day event, featuring a highly select group, is part of the renowned Bio-IT World Conference & Expo. This meeting brings together venture capitalists, private equity professionals, bank investors, government partners, start-ups, and industry leaders focusing on investment trends, challenges, and opportunities in biomedical research, drug discovery, and healthcare technology. Additionally, your registration includes access to the Bio-IT World exhibit hall with 150+ emerging businesses, 11 scientific tracks, and networking receptions.

Drug Discovery Chemistry

April 14 - 17, 2025

Drug Discovery Chemistry is a dynamic conference for medicinal and biophysical chemists working in pharma, biotech, and academia. Focused on discovery and optimization challenges of small molecule drug candidates, this event provides many exciting opportunities for scientists to create a unique program to hear presentations most suited to one's interests by going back and forth among concurrent tracks. Last year's event was our largest ever! Speakers from Top Pharma include: AbbVie, Amgen, Astex Pharmaceuticals, AstraZeneca, Bayer, Biogen, Boehringer Ingelheim, Bristol Myers Squibb, Eli Lilly, Genentech, GlaxoSmithKline, Johnson & Johnson, Merck, Novartis, Pfizer, Roche, Sanofi, and more.

PEGS Boston: The Essential Protein & Antibody Engineering Summit

May 12 - 16, 2025

The 2025 PEGS Boston Summit is set to build on the remarkable success of previous years, continuing its legacy as the premier event for biologics and protein engineering. Bringing together a global community of experts, innovators, and leaders in the field, the Summit will offer cutting-edge insights into the latest advances in drug development, protein and antibody engineering, immunotherapy, radiotherapy, and AI/ML-driven biologics research. With over 300 presentations, breakout sessions, and interactive seminars, attendees will have unparalleled opportunities to network, learn, and engage in meaningful collaborations. The exhibit hall will once again feature top product and service providers, creating a gathering space for discovery, innovation, and fun. Join us at the PEGS Boston Summit to be part of the next wave of breakthroughs shaping the future of biologics.

Digital Healthcare Innovation Summit (DHIS)

May 19 - 20, 2025

Join leading healthcare innovators and investors at the Digital Healthcare Innovation Summit (DHIS) in Boston, MA. We'll examine timely topics, such as direct-to-consumer healthcare, underserved populations, important regulatory or policy changes, distributed vs. centralized care, women's health, IaaS and IoT in healthcare, and more. Catch lively panels, take part in interactive breakouts, and network with industry leaders in this tight community. Investors, startups & emerging companies, tech companies, payers, providers, and veteran advisors will all be attending, so don't miss out. This premier boutique digital health event helps fuel healthcare innovation – be a part of it!

Food as Medicine

June 4 - 5, 2025

COLLABORATION - It's going to take all of us to make Food as Medicine a long-term, sustainable reality. With Providers, CBO's, Payers, Retail, Food Companies, Government, Investors, Associations and more all in attendance, The Food as Medicine Summit will ignite collaboration across the field. OUTCOMES - Improving outcomes is at the heart of The Food as Medicine Summit. As we move from promise to implementation, this year's Summit will focus on providing tangible outcomes and takeaways to help ensure Food as Medicine can truly deliver on its potential. IMPACT - Food as Medicine holds so much promise, but we need to cut through the hype to ensure we focus on where and how we will have the biggest impact. This year's Food as Medicine Summit will once again provide the learning and networking opportunities to help make this a reality.

The Future of Mental Healthcare Summit

The Future of Mental Healthcare Summit provides a meeting point for healthcare leaders to have the discussions needed to define the next generation of care. Entering its 5th year, The Summit is dedicated to fostering idea sharing, building new connections and, ultimately, improving the lives of patients in need. Join key decision-makers as we continue our mission of reimagining the future of mental healthcare, together. This highly-focused and "intimate" summit focuses on providing tangible takeaways for all attendees. The carefully curated agenda and audience ensure that each discussion onsite is as impactful as possible. Cutting through the noise, the Future of Mental Healthcare provides unrivaled opportunities to meet with senior peers a dedicated setting and focus on what is going to move the needle for the field. Built around discussion-led sessions and high-quality networking opportunities, the impact of The Future of Mental Healthcare Summit will once again be genuinely significant. Focusing on the critical challenges and opportunities facing the field will ensure attendees leave with an extensive list of learnings and connections that will positively impact their work for years to come. Join us to feel this impact!

Medtech MVP

June 16 - 17, 2025

Medtech MVP is an annual gathering of the leading innovators, investors and executives from around the nation discussing the timeliest issues and opportunities. This conference features candid discussions (panels or 1-on-1 conversations) that explore relevant topics for medtech innovators and business leaders as well as ample networking in a tight community. The many years of successful Medtech MVP programming have relied on insightful and beneficial perspectives and recommendations from our various keynotes and panels.

Immuno-Oncology Summit

August 11 - 13, 2025

Commercializing breakthrough immune-oncology therapeutics is becoming increasingly challenging due to funding limitations, high cost and attrition rates in the clinic, regulatory uncertainties, persistent therapeutic safety and efficacy concerns, and a general lack of understanding of basic biology guiding research in this space. As we develop the 2025 conference program, we are struck by the fact that, despite these challenges, there remains a strong desire to continue to find effective therapeutics for solid tumors. The 13th Annual 2025 Immuno-Oncology Summit showcases successes in preclinical and clinical studies grounded in a deep understanding of biology. Coverage spans solid tumor innovations, including bi/multispecific antibodies, antibody-drug conjugates (ADCs), allogenic and in vivo CAR-Ts, TILs, TCRs, Tregs, multiple cell therapies working together, the tumor microenvironment, innate immunity, gamma delta T cells, NK cells, organoid modeling, data science, and machine learning. The program also explores autoimmunity as a critical and complementary area of focus.

Bioprocessing Summit

August 18 - 21, 2025

Join a global community of thought leaders and innovators shaping the future of bioprocessing. Dive into cutting-edge research, share insights with industry experts, and tackle the challenges of bioprocess R&D, scale-up, quality, and analytics. The Summit offers: Main Conference Sessions with actionable insights, In-Depth Training Seminars led by industry pioneers, An Engaging Exhibit Hall showcasing the latest technologies, Networking Opportunities to connect with peers and experts, Dedicated Programming on AI and machine learning in bioprocessing, Cell Culture, Purification and Cell & Gene Therapy, and More! Elevate your expertise, expand your network, and drive innovation forward. Be part of the conversations shaping tomorrow's bioprocessing solutions

About

Cambridge Healthtech Institute

Our Vision

At Cambridge Healthtech Institute (CHI), we believe bringing together a unique and diverse constellation of innovators, scientists, and life science professionals can hold the key to developing tomorrow's cures and diagnostics.

We are a life science network for leading researchers and business experts from top pharmaceutical, biotech, and academic organizations. CHI's product portfolio includes Cambridge Healthtech Institute Conferences, Barnett International, Insight Pharma Reports, and Cambridge Innovation Publishing, consisting of Bio-IT World, Clinical Informatics News, and Diagnostics World.
